

## ARTISAN SCREEN

## ECO-PROFILE

Animavi's business philosophy is rooted in its deep commitment to designing and manufacturing eco-intelligent furniture based on sound economics, environmental protection, and social responsibility.

The Animavi Artisan Screen is one -of-a-kind metal artistry. Inspired by hand-crafted jewelry, its true function, to redefine space, is complimented by its flexibility to take on both linear or serpentine form.

- Steel components can be recycled.
- Vertical resin planks can be reclaimed by manufacturer and recycled.
- Bamboo planks are FSC Certified, formaldehyde-free as well as being rapidly renewable.

**STEEL BASE:** Material - Hand Patina'd Mild steel

Steel is one of the most highly recycled materials in North America and has an 88% reclamation rate (Steel Recycling Institute June 2006). Club Chair/Ottoman are easily disassembled for recycling/up-cycling. For more information, visit [www.recycle-steel.org](http://www.recycle-steel.org).

**VERTICAL PLANK OPTION 1:** Material - 3form® Chroma™

Made from resin specifically designed to be repurposed and refinished again and again - thus preventing the material from entering the waste stream and allows each panel to be multi-cycled into new product. A non-toxic material that is 3rd-party certified by both Scientific Certification Systems (SCS) [www.scs-certified.com](http://www.scs-certified.com) and Greenguard Indoor Air Quality™ [www.greenguard.org](http://www.greenguard.org). 3form® as an organization is committed to sustainability. Through their reclaim program, they are providing a vehicle to inhibit disposing of their product to a landfill. For more information, visit [www.3-form.com/reclaim.php](http://www.3-form.com/reclaim.php).

**VERTICAL PLANK OPTION 2:** Material - 3form® ecoresin™

Made from PETG co-polyester resin with 40% post-industrial recycled content. A non-toxic material that is 3rd-party certified by both Scientific Certification Systems (SCS) [www.scs-certified.com](http://www.scs-certified.com) and Greenguard Indoor Air Quality™ [www.greenguard.org](http://www.greenguard.org). 3form® as an organization is committed to sustainability. Through their reclaim program, they are providing a vehicle to inhibit disposing of their product to a landfill. For more information, visit [www.3-form.com/reclaim.php](http://www.3-form.com/reclaim.php).

**VERTICAL PLANK OPTION 3:** Material - Plyboo® Bamboo Plywood

Neopolitan Solid Bamboo Plywood is a rapidly renewable, 100% Bamboo Plywood that uses a low emitting, formaldehyde-free adhesive. Smith & Fong has worked very closely with its suppliers in China to become the first manufacturer of Bamboo to receive the Forestry Stewardship Council's Certification (FSC). For more information on certification, visit [www.fsc.com](http://www.fsc.com). For more information on Plyboo, visit [www.plyboo.com](http://www.plyboo.com).
